How We Work

A simple, hands-on process. We do the technical work; you stay focused on your business.

1. **Discovery Call**
   We learn how your business runs and pinpoint where AI can save the most time.
2. **Custom Setup**
   We configure each tool around your services, scripts, brand voice and existing systems.
3. **Launch & Train**
   We go live together and show your team how to use and manage everything.
4. **Ongoing Optimization**
   We monitor results, fine-tune responses and adjust as your business grows.
